MURDERED BY NEGRO

Farmer's Wife Assaulted Found
 Steeping by Dead Body

Mrs. William Peak, living near
 Stratford, is assaulted and killed
 by a negro, who had been
 laitering in vicinity—Some Find
 Mother In Cellar With Her Sister
 Dead—At Her Side.

Stratford, Ont. 1-1—A terrible trag-
 edy occurred yesterday afternoon at
 the rural home of William Peak, a
 farmer living on 1 1/2 miles N. 1, 1, Do-
 minion, about two miles from this city.

While the husband and two sons
 were absent from the house a tramp
 negro named Frank Hopwood re-
 turned about four o'clock today and
 found the house and it is believed,
 intruded Mrs. Peak, the woman being
 found about four o'clock today lying
 on the cellar floor.

Both found as also lying asleep in
 the cellar, his hands, face and clothing
 spotted with blood, while blood
 covered the floor. The negro, who was
 found dead, was killed by a blow to
 the head which was inflicted by the
 woman, who was found dead.

The tragedy happened between ten
 and four o'clock. Mr. Peak and his
 sons, George and John, who come to
 work about five o'clock and John re-
 turned to the house to get a job of
 work, and arriving at the cellar he
 found the form of the sleeping negro
 lying on the floor. He found the body
 of the negro lying on the floor, and
 the body of his mother was found
 dead. Both returned to the
 house, where the police were called.
 It was found that the mother was
 dead with a portion of her head
 covered with blood.

George brought across the road to
 a neighbor's, Robert McIntosh, who
 found the mother, I believe, dead.
 "Henry over the house, I believe, dead."

PESTILENCE AFTER FLOOD.

India is in Peril of Plague—Died
 Last Monday.
 Hyderabad, India, Oct. 1-1—It is
 feared that pestilence will follow the
 floods that have occurred in the Hy-
 draabad and Deccan districts as a re-
 sult of the unprecedented rainfall of
 the past few weeks.

The waters receded Tuesday and
 the country is strewn with unburied
 bodies estimated to number not less
 than 1,000.

Most of the corpses are those of
 women and children. They are de-
 composed already and as it is impos-
 sible to get them under ground
 promptly an outbreak of illness is
 feared.

Many elephants are at present en-
 played in removing the dead. The
 latter reports from the flood dis-
 tricts point to a much heavier mor-
 tality than was supposed.

The rescuers up to the present time
 have only been able to remove the
 desolated area, but from the numbers
 still pending to be buried it is feared
 that the fatalities will total several
 tens of thousands.

One report places the death list at
 100,000. The number of dead bodies
 which consisted of one thousand
 were found in the flood districts. It
 has been entirely engulfed in the
 flood.

The catastrophe that overwhelmed
 India on the evening of last Sunday
 has been one of the most sudden
 and terrible in the history of the
 world. It has been one of the most
 sudden and terrible in the history of
 the world. It has been one of the
 most sudden and terrible in the history
 of the world.

KILLED BY BLAST.

One Is Dead and Another Badly Hurt
 Near Kingston.

Kingston, Ont. 1-1—A terrible acci-
 dent occurred yesterday afternoon at
 Westbrook, seven miles from here,
 when Henry Smith was killed by ex-
 plosion while blasting, and his brother
 Alfred Smith was killed by a blow to
 the head which was inflicted by the
 explosion.

He was brought to the General Hos-
 pital here, where the right arm was
 amputated. He will recover.

The young man's mother was
 very much distressed by the death of
 her son.

Henry Smith lives at Collingwood
 and his brother belongs to Caledonia.
 He has been working for the Caledonia
 Coal Co. for some time.

His brother Smith has been in the
 hospital several weeks undergoing an
 operation for a fracture of the skull.
 His brother Smith's body was
 found with a portion of his head
 covered with blood.

Mr. Borden Addresses Big Meet-
 ing at St. Mary's.

**Declares That It Is Government's Duty to Make
 Conditions Better For Agricultural Classes—
 Government Has Been Flagrantly Ex-
 travagant—Col. Hugh Clark, Hon. W.J. Hanna
 and Dr. Steele Speak.**

St. Mary's, Ont. Oct. 1-1—In the
 home of J. H. McIntosh, Rev.
 Mr. Borden's representative in the last Par-
 liament, came R. W. Steele, who was
 the platform colleague yesterday.

The meeting was held in the
 hall, and was well attended. The
 platform which was full to the doors
 at 7.30 and overflowing at 8 o'clock,
 when the Conservative candidate
 arrived, Mayor William Steele.

Dr. Steele, the Conservative candi-
 date, condemned the extravagance of
 the Government's policy in the ex-
 penditure of \$44,000 in the riding of
 Bonaventure, as a sample. The \$47-
 000, he pointed to St. Mary's was also
 an example of money improperly
 expended.

 also pointed to the Government's
 policy in the expenditure of \$47-
 000 in the riding of Bonaventure, as a
 sample. The \$47-000, he pointed to
 St. Mary's was also an example of
 money improperly expended.

Mr. Borden discussed the duty of
 the true Canadian in the maintenance
 of the principles of honest government.
 There would be no more money
 as to the tariff or public ownership.

On the question of morality in
 politics, he pointed to the Government's
 policy in the expenditure of \$47-

AN UPHOLSTERY HINT.

Embroidered Grass Green Linen For the Summer Curtain.

It is an art to be a curtain loop now. Where half a dozen kinds of different draperies are used on one floor, it gives a unity to the effect to have all the loops, at least, alike.

The latest is a curtain loop made of quality embroidered grass linen, that has a material which stands up many months without losing its beauty.

Such loops may be wide or narrow. It is possible to buy straight strips of the narrower bands ready embroidered, and they are far from costly. Blinded loops are made to order or they may be ordered off the rack. The designer must be something in keeping with the material, and the embroidery looks best if done in white cotton on a colored ground or in a cotton to match the linen. Small flowers placed close together, apple or cherry blossoms or wisteria, are always suggestive of the spring.

When cretaceous, cotton, flowered fabric or any of the colored materials sold in the shops for summer curtains are used, then the same may be made into loops, if one is carrying out the correct scheme of decoration. Draped curtains are not always preferred to straight hanging ones, but for summer rooms in the country nothing could be more pleasing to those who like to see that they are getting as much fresh air as possible. Looped back curtains give a room a cooler and less formal appearance than straight hanging ones, which is another reason why this style is adopted in the country houses.

Antique supports for curtain loops are being revived and are much liked by the country dwellers. Perhaps they are not quite so large as were the huge and metal resties upon which the long trailing curtains of days gone by were draped, but in every other thing they are identical. Some even are of colored glass or crystal, in perfect imitation of the old time ones that are so highly valued.

A GOOD LETTER.

One of the Most Conspicuous Literary Quality of a Social Letter.

Every carried over to the next day, unconventionally being the most conspicuous literary quality of a social letter.

Eligible expressions are proper enough in familiar correspondence, but they have no place in notes of ceremony. Naked egotism is as much out of place in a familiar letter as it is in a drawing room or at the dinner table. Extreme pretension, whether of phrase, construction or of matter, should be avoided. It may be taken for granted that the polished letters of famous men and women have been edited, and it is a pity that we do not have such letters just as they were written.

Letter writing is a form of social contact, and the first essential of such contact is courtesy. One might almost as well open at once in response to a social invitation with the phrase, "You are as well open as myself and so are we," as to open with your private correspondence with the glang of the married pair, the new couple of the household.

We should leave out of our familiar letters that stilted legal phrase, "in evidence," because it is technical, and it does not serve as well as something truly untechnical.

An untechnical form that is better excluded from any but the most familiar correspondence is that in which the pronoun "I" is the subject of a sentence or clause.

It is a pleasant surprise to read a letter that opens with a sentence directly from the heart of the writer, yet most of us are such slaves of convention that we fear to shock our correspondents by any departure from ordinary usage.

CONCERNING WOMEN.
Bernard Shaw's wife is a suffragist and marched the other day in London. Her husband told her that he would go into the procession, too, if she would wear a ball chair in which he would sit. He said that the funniest thing he saw in the procession was a man with a baby, marching next to a woman carrying a bundle of sticks. Only one baby, and that carried by a man, he said. "Only one dog, and that carried by a woman."

A NEW INVENTION.

An Attractive Frame For Hanging Up Princess Gowns.

To make an attractive frame for hanging up princess gowns without marring them take a pasteboard mailing tube about twelve inches long by two inches in diameter and cover with a piece of Dresden ribbon two inches wide.

FRAMES OF WHITE TO HARD PRINCESS GOWNS.

longer than the tube and wide enough to let the edges rest down the length. Sew the edges together, turn it inside out and each and paste inside the edge of the tube with library paste. This leaves the ends open so that a yard of ribbon one inch wide may be passed through the tube and the ends tied together in a bow. Put the ends through the ribbon until the wide line is over the tube, the wide hanging on one side and the skirt on the other. This hanger may be used for a gown where tapers at the waist are insignificant—Good Housekeeping.

A CURE FOR FRECKLES.

Formula For a Lotion and Cream to Remove Them.

The woman who freckles easily and dreads the summer time is to be pitied. But sad and sunburnt and painful, but after awhile they disappear. But so not with freckles. They will remain through the winter months unless something is done to remove them. This, as all know from experience, is much easier said than done. They are as stubborn to remove as a willful child when it is necessary to make him clean his face.

The following formula may be made up of the best to remove them: Lotion, acid, four ounces; glycerin, two ounces; rosewater, one ounce.

Apply this lotion to the face several times during the day. Put a small piece of soap in a dish and dip a soft linen rag into it and apply.

All skin will not stand the same treatment, and while some may use this lotion or other face lotion with no ill effect, others may suffer from a burning sensation of the skin.

To prevent such burning it will be better to massage the face after getting the lotion with this color flower cream: Almond oil, three ounces; white wax, two ounces; sweet almond oil, one ounce; olive oil, one ounce; white wax, one ounce; olive oil, one ounce; white wax, one ounce.

Massage the skin with this every night and one will be well repaid for the little trouble. The skin will become soft and supple and a shining white. If the skin is inclined to be rough and dry it will be beneficial.

This cream is not only good to use after the freckle lotion, but on any dry, chapped skin. It will take away the roughness and give the skin a delicate appearance.

FOR THE HOUSEKEEPER.

The outside of a trunk is not the only thing that needs attention. The inside, although there are no "interior" lamp shades, is just as important. The lining becomes torn and soiled they are replaced with a new one. Only recently fastened with tacks, makes excellent lining paper. Body mail may be lined with paper wall paper, the edges neatly finished with pane paper. The paper should be put on with good wall paper paste and allowed to set before the trunk is used.

Nothing Gained Without Effort

No effort—no gain. Yet that does not mean that the greatest gain comes with the greatest effort.

For instance, it requires very little effort to insist on having "Progress Brand" Clothing, and the gain is proportionately great. If on the other hand, a man is satisfied to accept the first suit or overcoat that is handed down, and will make no effort to secure a reliable make like "Progress Brand"—he can't expect to have other than shabby clothes and a walking advertisement of his own indifference.

Look what you gain by buying "Progress Brand": stylish, perfect fitting garments—made of dependable goods—by expert tailors.

—and sold with an unconditional guarantee that they must give satisfaction or your money back. The man who looks for the "Progress Brand" dealer and the "Progress Brand" label gains a great deal with very little effort.

The gain is not merely one of dollars and cents (always an important consideration) but in the greater gain of commanding attention and respect by being "always well dressed."

Escaped Prisoner

Went Back to Scene of His Former Crime

William Kightliffe, After Spending Saturday in Church, Started Out on a Marauding Expedition, and Was Recaptured.

William Kightliffe, who escaped from the county jail on Saturday night, after having been confined to his cell for several days, was recaptured today. FINISHING SHEEP

To Reach Perfection They Must Be Properly Fed From Birth.

Scientific men first, to the foodstuffs various formulas for the proper nutrition of the ration or food given to live stock which is termed a balanced ration, or in other words, a certain quantity of food the elements of which balance in correct proportion to the supposed requirements of the animal which consumes them. Late all scientific principles which are practical work, it needs, in addition to the scientific, a thorough practical knowledge in order to obtain full benefit from the information.

The foodstuffs which are used in the ration are placed in the hands of the feeder. What is suitable for a small animal at one stage of its development is not suitable for another. In dealing with the finishing of sheep, however, it may at once be said that, though the feeder may be a layman, he can never bring sheep or lambs to proper finish that have been in their earlier days neglected or allowed to waste away.

The season of the first class carcass is the winter. The sheep should be in the best of condition at this time. It is the portion of its career that few stock which only those that have been in the hands of a feeder.

FEEDING HORSES.

Variety of Grains Properly Balanced Give Best Results.

One of the important factors in the feeding of horses is the selection of the grain and feed stuffs. It is a fact, however, that no more than a certain amount of feed can be fed to a horse at one time.

The other 10 per cent must be fed in the form of hay or straw. It is a fact, however, that no more than a certain amount of feed can be fed to a horse at one time.

THE SWINEHERD.

Tests at the Indiana experiment station indicate that pigs make better gains when their grain is fed dry than when it is mixed with water.

The results of the tests show that the pigs which were fed dry made the most rapid gains and that the pigs which were fed mixed with water made the least gains.

in Black or Navy Blue

Woven with the fine long strands of Australian Wool this splendid Canadian Serge is without a peer for value and wear.

Blueson Canadian Serge is the best, known product of the Canadian wool mills. We have a permanent arrangement, giving us the exclusive right to the whole product of the Blueson Serge in Canada.

It is our Serge leader—we sell single and double breasted Blueson Serge Suits, in black or navy blue at \$22—the same price to everybody anywhere in Canada.

Fate had brought some extraordinary, pathetically strange, the others of the crew gathered round. They were all staring at the man who was the subject of the "Mardi" paper. It was the copy of "The Mardi" paper. I haven't the slightest idea where he could have got it.

While this remark, Randy Solomon looked on the situation with a smile. He could never get it to hold, and I remember as an incident in my life, reading the results of a strange, unexpected event. Whatever the circumstances, it always ended with the same result. These men had no respect for which to judge any things. They accepted its speculation and then, as if by magic, they were the same. They were the same. They were the same. They were the same.

Dr. Dorenwend appeared on deck seldom. When he did, after his fingers held a pen which he had forgotten to say. I imagined him proceeding to his usual examination of the crew. But the forecastle, more picturesquely, as he was as guarding the crew. Every one of them had his own story to tell. He was the same. He was the same. He was the same. He was the same.

Elizabeth's Position.

By CARL WILLIAMS.

Copyright, 1931, by Associated Literary Press.

Elizabeth found the town formidable as she emerged from the station to face the hosts of shouting hangers-on.

At other times she had come to the city with a party or she had been met by the people whose guest she was to be.

This time she came alone to face the town, the life which gradually she was to determine to make a career for herself.

In her pocketbook was \$20, a card in the hotel address upon it, a card of introduction and a clipping from the Montreal Courier.

These were the only things she had with her to make for success. The money was for the first going and the card of introduction was a letter from the editor of the Montreal Courier.

With such an augury for her future Elizabeth could not turn back. Her mother had said as much.

Elizabeth felt that she must succeed. She was the first of her family to leave the town.

VALUABLE REEDS YOUNG.

Miss Agnes Leat, the Novice, Discovers Oriental Matting Material.

Miss Agnes Leat claims she has discovered in the Saskatchewan river the reed which is used by the Chinese and Japanese in making matting. To find outside of the Orient has been found with the same effect. Miss Leat says:

The scientists of the United States Government have been for many years engaged in a search for the reed from which matting is made in China and Japan. An attempt has been made to cultivate it on swamp lands in the States, but the plant has failed to thrive. The plant is now being raised in the United States from China at present amount to about twenty million dollars per year.

"This reed is known to scientists as Phragmites communis and is a field of it which was recently mined in the vicinity of Lake Winnipeg. The plant grows to a great height and is known to the Indians as 'the reed which grows like a tree.' They people it with a 'reed' from the fact that the rate fed in the reed is very high."

"It is the exact reed which is used in the manufacture of matting. The production of matting will be increased by the use of this reed in Western Canada material for a new and improved matting. If the Government of Canada should do this, it would at once investigate the reed of the territory on which the reed is to be found and send scientists to China and Japan to investigate the methods of gathering in the raw material and the manufacture of the matting."

OLD ESSEX FAMILIES.

The Wigle Family is First in County With Berach a Close Second.

In the riding of South Essex, Ont., a distant named Darius Wigle is a Conservative candidate for the Provincial seat. Recently Mr. Wigle gave reasons for his political views. In his opinion, and incidentally mentioned that he possesses a farm of 600 acres. He would be a farmer, indeed, if it were not the owner of many farms. He is a man of many talents and talents come virtually unbidden to the Wigle family. Next to the Wigle family comes that of the Berach family. An alliance of a Berach and a Wigle—rather an odd conjunction of names—meant that the whole country came to the wedding. It is related that a minister who was departing from a house paragoned words to his successor in these terms: "You will find an interesting field here and I hope will be greatly benefited. Old Berach called this morning and said he would be happy to entertain your family until the paragon is ready. The 'paragon' was somewhat scandalized until he discovered that the character so referred to was the congregation, with such vicarage as are hardly seen in Ontario, outside of Essex and Lincoln.

Prof. McLean's Career. Simon James McLean, whom the Dominion Government has appointed a railway commissioner, is still a young man, but has had a very brilliant and creditable career.

He was born in Ontario and was born near Ottawa, and received his education in the University of Toronto and the University of Chicago. He graduated from the University of Chicago in 1880. He then went to the University of Toronto and received his M.A., and from there went to Chicago University where he took the degree of Ph.D. He was appointed to associate professor in the University of Arkansas, and from there went to the University of Toronto, of which he was acting head of a department for a time. Lastly he came back to Toronto University, and for three years has been associate professor of political science there. Prof. McLean was well liked by the students, and was a great amount of respect. For such a young man he has done a great amount of work, and has written much for various journals on railway and transportation problems, as well as on banking and finance.

Subjects Undesirable.

Rhodes Robinson, the recently-appointed immigration officer at Windsor, has started in to conduct an aggressive campaign against the alien labor which for some time has been flooding the western part of Ontario. He turned back a batch of the Poles who crossed over recently with dinner baskets, hoping to get work at the Windsor end of the tunnel. No attempt is being made to control regulatory tactics as against the United States' head tax, which continues to be imposed upon Canadians going into the United States for the first time, but a strong effort will be made to keep out the objectionable class of immigrants which for some time past has been invading the country in ever-increasing numbers at border points.

Meets Five Acres.

Boy Coon of Appleton, came across five bears in a field of marsh near his home a few days ago, and here he took his gun with him, shot two of them. The other three disappeared in the woods near at hand, one of them carrying in his hind a cub that had failed to reach his mate. Coon had with him only a few cartridges, as he did not expect to meet any game. The bears he killed were the mother and a well-grown cub.

All Married Poets.

Mrs. Henry Polk, for seventy years a resident of New York, Leeds county, died a few days ago. A peculiar circumstance is the fact that her daughters are all united in marriage to men of the same name, and yet are not related. They are: Mrs. J. Polk, Lombard; Mrs. Daniel Polk, Fort Elm; and Mrs. J. H. Polk, Toronto. The deceased was a sister of Mr. R. L. Jory, ex-M.P.P., North York.

more than competition. The fight may be fierce and the battle long, but there is no royal road to learning, and silence is the key that

enriches the dear of the throne-room
in "the kingdom of culture."

Growth is the law of life, and fruitfulness is the pledge of progress. Scientists assert that, while life itself is indeclinable, yet it may be detested by a two-fold test, viz., assimilation and propagation. Christian life may be tested only in the same way, for, if there is life there will also be growth and fruitfulness. "Not every one that saith Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my Father which is in heaven." Only the man who is brave, constant, and victorious in temptation, only he who

Finally, see how love becomes the instrument of strength. The crown of life is promised of God "to them that love Him." This is the secret of manhood's victory over temptation: The very "pulse of the machine" is love, and here is the secret of fortune. Love of country is the inspiration of the soldier as he goes forth to battle; love of home and the satisfaction of the landr

pursues, and in that strength he
 triumphs over and wins the day; love of
 God is the inspiration of every man
 who fights "the good fight of faith
 and that sign of love alone he
 conquers."
 "Our Captain calls us forth,
 To conquest and a crown;
 Our love, through Christ, shall tread,
 The powers of darkness down;
 The feeblest saint shall win the day,
 Though death and hell obstruct the
 way."

Part II. In Out of Style

fat is out of style.

To paraphrase Gwyneth's remark, the director says, "we're not—and-and—and." So fat ladies are reduced, so to speak, to the minority of either being at the top of the food chain or eliminating themselves from public view until the fashion dies out. Otherwise they risk being ridiculed.

Since many fat ladies will not eliminate themselves, however, but, like Gwyneth, will continue to hang in there, even if it means being the laughing stock, we can only hope that this well-meaning article either makes them aware how they eliminate the fat.

What is there, then, that reduces fat ladies? What else, besides being ridiculed, is there as "draughts" as shaves that can reduce a pound a day?

without eating, walking, or standing. What if you could get the physical suffer as an improvement over many vitamins or ten mile walks without breakfast? Is there anything physical to take and forget about, a way that will reduce on uniformly, quickly and innocently thirty pounds a month? Here is the answer: Either take the Marmol Tablets, or Marmol, or ask your local druggist for Marmol Prescription Tablets, and for 25 cents they or he will give you ten large doses of 1000 fat reducers, containing a guaranteed quantity of tablets that sometimes one can only be needed to produce the desired result. Can you make that for a simple solution of your problem?

DEATHS CANNOT BE CURED
 by local applications, as they cannot reach the disease of nature of the case. There is only one way to cure Cancer and that is by a constitutional remedy. Deaths are caused by an internal condition of the disease, called the Cancerous Tumor. When the tumor is internal it is not possible to remove it by local treatment, and when it is internal it is not possible to remove it by local treatment.

REFUGEES MEET DEATH

Seventeen on Michigan Forest Fire Relief Train Perish.

Inhabitants of Village of Mat White
Fleeing to Village of Mat White
Fleeing to Village of Mat White
Fleeing to Village of Mat White

Alma, Mich., Oct. 17.—Seventeen people lost their lives yesterday in the burning of the Detroit & Mackinac Island passenger train.

The ill-fated train was derailed by spreading rails at Novi, Mich., a few miles south of Mat White, and the terrified refugees were forced to abandon the cars and rush for safety.

The burning forest was a wall of fire, and the train was completely destroyed. The survivors were rescued by the fire department.

Two of the men were men of the village of Mat White, and the other two were men of the village of Mat White.

NOILLUDDY COMMITTED.

Calgary Editor to be Tried on Criminal Libel Charge.

Calgary, Alta., Oct. 17.—Court was crowded yesterday morning, when the libellous editor of the Calgary Herald, Mr. J. H. Brown, was charged with criminal libel.

The charge was made by the Calgary Herald, which had published an article in which it had accused the editor of the Calgary Herald of libel.

The judge, Mr. Justice Gauthier, said that the charge was a serious one, and that the editor was guilty of libel.

The editor was found guilty of libel, and was sentenced to a fine of \$1,000.

TIMELY TOPICS.

Good evening. Glad to see the smoke 'till night didn't suffocate you nearly tonight.

A week from this bright and it'll be showing the same over clouds and the Grits.

Excuse us if we write a little blotted today. Lady in church had night finished the work of our work till it was a good deal stiffer than Laidlaw's bookish. Hence, if we say an unkind thing or two about the Grits people will know the reason and remember the kindness with which we treat them not or diary occasion.

God bless the old church, last night, speaking in a loud, clear, and China was not, as a rule, faint. Unwisely, he said, was not a product of imagination, but of Christianity. And yet we have known a few Christians who would stand considerable watching, too.

Lady tells us a story. Many people have seen a blind man who slaps on our streets. He holds a cane, in which Christian people get small change. It is alleged that, not long since, two youngsters were seen to go round and sell the cane, and that the poor old man, who is blind, is now a beggar. He does not receive the name of a prophet to foretell that the door of the reformatory will soon again for those youngsters.

Laidlaw says he has given his life for this country. That's all right, but the trouble is he's giving the country to his friends.

A traveller who spent the weekend in this city, and who had recently travelled from Nova Scotia to B. C., says the country is three-quarters full of "superstition." This word, in any way, will give nearly straight Conversations.

A FOUR GOOD REASONS.
A correspondent of the Montreal Star gives the four following excellent reasons why Mr. Borden should be placed in power:
1. Borden is a man of the nation at large is dead. His recent

Reliable Furs Moderately Priced

One of the main points in buying furs is to know where to buy them. The most important point to intending purchasers is the reliability as to quality and style of the stock from which selection is to be made. That point, together with economy in the purchase, constitutes the strong attraction of our fur stock.

We give a few prices that represent our fur values. An inspection of the furs themselves will prove the reliability.

Toronto, Oct. 21.—Sir James Whitney had no rival in his oratory at Massey Hall last night, and the packed building enjoyed to the full his

grips and cranks his keen satire, his biting wit and the extraordinary range of his knowledge and experience. His indictment of Laurier runs clearly to the taste of the audience, and the speaker's words went home to their hearts. "I can tell you of course that this is an absolute disaster," he said, speaking of The Globe's editorial about the proposed new senatorial party officers to Algonquin to intimidate voters. Hon. Mr. Laurier, who was present, said James' account of the origin of the

sick in bed, to get up, as the house was on fire. He arose, but the fire seemed to have cut off his escape, for despite the best efforts of his wife, both he and one of the little twin

granddaughters - perished in the flames.

Two Prospectors Disappear.

Vancouver, B.C., Oct. 21.—Harry Pluppes and Matthew Tummon, Englishmen, left Edmonton March 28 for Igarka river, gold placer diggings, well outfitted. They arrived at Fort

Graham, Findlay river, June 4 and were last heard of in camp 60 miles north of Fort Graham. There Indians noted their horses and empty

camp, but thinking the men were prospecting, and would return to the pituit, touched nothing, although they wondered that no provision was made to secure feed for the horses. Final-

ly they reported to the Hudson Bay agent at Fort Graham. The men's fate is a mystery, but it is presumed they are drowned.

Things were passed up yesterday.

While Mr. Walter Lauer was making a big reception in Montreal, from the Sir John's street and the works were not paid for by the workmen, people of Canada, either. Some of the things that were...

It is now said that...

Mr. Broderick, who was declared off by a statement, secured his return by extremely sharp practice, and his prospective opponent, who claims to have had his nomination paper, property and his \$100 in the hands of the returning officer, is making the waiting game with his protest. It seems almost impossible for the Grits to play the game fairly.

Mr. James Whitely calls them the playfully idiotic of the Grits. He says that the Grits are not that kind of a "body".

Mr. Johnson Again

Aids the Farmers.

We mentioned a few weeks ago that owing to the efforts of Mr. J. Johnson, M.P., the Ontario Government had granted to the farmers a 10 per cent. discount on the price of the wheat.

Quite the right word to say, however, is that the farmers are not to be deceived by the fact that the Ontario Government has granted to the farmers a 10 per cent. discount on the price of the wheat.

le Furs Moderately Priced

One of the main points in buying furs is to know where to buy them. The most important point to intending purchasers is the reliability as to quality and style of the stock from which selection is to be made. That point, together with economy constitutes the strong attraction of our fur stock.

We give a few prices that represent our fur values. An inspection of the furs themselves will prove the reliability.

TURKISH ARMY OFFICERS.

They Are Neither Loved Nor Respected by Their Men.

Very seldom if he can help it does the Turkish army officer appear on horseback, and when not on duty he looks upon his horse merely as a method of locomotion. He has no affection or understanding for the horse. The superior officers have no homes of their own, and being generally bad riders and without military qualities which would raise them in the estimation of their men, they are neither loved nor respected by them. Starved officers receive only "themselves" as such things as invitations to one another's homes being unknown, and the only occasions upon which they meet is either at all are on the days of assembly, when they are called together for the Sultan's birthday or accession celebration.

The pay of the lower ranks is as small as that of the superior officers. The young cavalry officer who makes a good impression on his entry into the service soon falls in love through want of occupation either of mind or body. The greater part of the morning and evening he sits on his cot and reads or smokes. There are but few newspapers, and these do not exist as no secret is concealed by the government that they could not be without the least of discretion.

What the Turkish officer really thoughtfully regards is a grapevine. Innumerable grapes the waiter is producing the music hall songs of all the cities of Europe are in the possible reach, chiefly because they make music without any personal trouble.

BENEFITS OF CHLORIDE.

Phylid, if You Pull Through,
Gives You a New Stomach.
GOOD EVEN IN RHEUMATISM.

That Painful Affliction Known as
Migraine Out of the System and is a
Promoter of Long Life—Healing of
Colds and Bronchitis.

To attack down by disease means a most undesirable thing, yet there are many things today in the market of judgment of very excellent health but for an attack of some disease would have a life of suffering and perpetual misery.

These people were, first of all, victims of indigestion in its worst form, and only those who have experienced it know what true misery is. Struck down by typhoid fever, they were confined to their beds for weeks of indigestion, for one outstanding case of typhoid is that if you pass through an attack of it gives you a new stomach. In fact, after an attack of typhoid the victim is usually left with a stomach like an infant.

That is the grand chance for one who has suffered, it may be, for long years, to get a new stomach. It is only he takes care, after an attack of typhoid he need never know indigestion again.

It is remembered that any one troubled with severe indigestion is now, after being visited to the hospital, found to be suffering from chronic bronchitis, severe rheumatism, or some other disease of blood in circulation, for of these things which none of us want, yet even a chronic cold has its good points, more especially if you happen to be in years a little too old, of course. People who are in a day or two, suffer from chronic bronchitis, severe rheumatism, or some other disease of blood in circulation, for of these things which none of us want, yet even a chronic cold has its good points, more especially if you happen to be in years a little too old, of course.

It is the chronic type of which yields to the blood. If, however, you could get to a ripe old age, you cannot go on at all without the foundation of a good blood. If the cold be not acute, old people derive little benefit from it. Acute attacks, on the other hand, do not give you a new stomach. It is the chronic type of which yields to the blood.

Sinclair is a devoted source, so much so that if it is reported that a case is cured, it is immediately passed through the whole community. Yet these people are not cured and recover usually only to a great old age. It means that there is some mysterious way by which purity of the blood.

Alfred Hammond, the Great English Journalist, in Toronto Gives Interview In Which He Says That Synopses of London Times Would Be Gained to Canada—Paper-Farm Will Make Small Newspapers
Toronto, Oct. 23.—Lord Northcliffe, principal proprietor of The London Times and Daily Mail, and head of the leading magazine, proprietary, and newspaper publishing empire in England, arrived in Toronto yesterday afternoon. He is staying at the King Edward and will remain until after the elections. He is staying at the King Edward and will remain until after the elections. Sue Editor Of the Globe.
Hon. George E. Foster Claims \$150,000 For Libel.

One Way for \$50,000 is Issued Against Rev. J. A. Macdonald and Another Against The Globe Co. For Libel Will be Issued To-day—Is Reply to Mr. Macdonald's Charges in Speech at Orillia.

Toronto, Oct. 23.—A writ claiming \$50,000 damages for slander against Rev. J. A. Macdonald, editor of The Globe, has been issued on behalf of George E. Foster, M.P.

Formal notice that writ for libel will issue was served on The Globe yesterday. The writ will name \$100,000 as the amount claimed.

This is Hon. G. E. Foster's reply to Mr. Macdonald for having at Orillia on Tuesday night and pretty coarse language in referring to Mr. Foster's business relationship with the United Trust Co. as the matter of commissions, and to The Globe for publishing the same.

Mr. Macdonald was not in the city yesterday, but the writ was placed in the sheriff's hands for service to-day. The writ was served on Mr. Hill, Hamilton, Saunders & Torrance, solicitors for The Globe.

The action is a counter-claim. The same firm of solicitors is also appearing in the action against Foster, which has been put into circulation by the Globe.

Mr. Macdonald's speech at Orillia was a severe attack on Foster, in which he accused Foster of having been guilty of a serious breach of confidence.

Help the Boys to

Get on Right Path.

Thoughtful and Inspiring Address by a New York Gentleman Last Night—Something for Parents to Think Over.

Three hundred gathered at Watline's hall tonight a very representative assembly of citizens by the way of this city, who afterwards listened to Mr. Frank H. G. H. of New York City, who had just been elected down at the general time in influencing for right boys from 12 to 18 years of age. He emphasized that these were the years in which the greatest transformations were taking place, which shape a boy's character toward strong and lofty ideals or the very opposite. It is in this age that the waste cover of blatter line is generally missed out. Parents generally are quite oblivious to this fact. It is the crucial period of a boy's life. Volatile changes are going on inside the head, and the parents are striving to find out. If he does not receive the instruction, parents or friends he hears it on the street from the chance. He soon learns to make light of things sacred. This part of things goes on through the majority of boys, through the neglect of the parents, and the neglect of the strength of coming generations. The speaker then planned that men are being specially trained by the Y. M. C. A., Christian Associations, who are especially prepared for the boys in the Boy Department, and who work in conjunction with parents and the Sabbath schools. Such a man make it his business to interest him in the boys, and to make their lives. The speaker then said that the boys in this city were about 100,000 in number. The 600 or 700 boys in this city were about 100,000 in number. The speaker then said that the boys in this city were about 100,000 in number.

A-Nocturnal Nuisance

At a late meeting before 9 o'clock last night the police answered a call to Dundas street, where a drunk was making night noises by his yell. When the officer arrived at the place where the party was supposed to be, he found that the man, but two coats and a hat were picked up and taken to the station.

Y. M. C. A. NOTES.

Sunday afternoon at 4:15, Mr. Bailey will speak. Friday, Mr. Chown; tonight, Mr. Hildy. In the evening: Speaker, Mr. Hildy; pianist, Miss Jones; soloist, Mr. Taylor.

FIRST CHEAP WATCH

The Story of the Famous Old Long Winding Waterbury.

SCHEME OF AN OLD COBBLER

How the Connecticut Shoemaker's Idea Was Taken Up and Worked Out—A Tale of the Town of Waterbury.

In a small corner town in Connecticut lived a cobbler. He was a poet-man and a peculiar one. The boys called him a "crazy" and he thought him crazy. But he kept on the even keel of his life, writing his own life and thinking his own thoughts. One of these thoughts was that he could make a watch that would last for ever.

He had a little shop at the head of the cobbler and called it his little shop. It was the beginning of the famous Waterbury watch, which was the first cheap watch to be manufactured. It is now a thing of the past, but his cheap price and his remarkable work were known around the world.

The Waterbury watch was made in the town where it was made. It had more than the three apiece that the cobbler had learned, but the little old shoemaker's idea was the original germ from which was evolved the successful cheap watch.

It was a small watch, but it was a watch. It was a watch that was made in the town where it was made. It was a watch that was made in the town where it was made. It was a watch that was made in the town where it was made.

Mr. Frank H. Smith, accompanied by his wife, Helen, returned to Toronto. Mr. Smith is having his wife, Helen, who has been under treatment for a fever. The village society was very antipathetic, noted a few years ago, and under the guidance of Mrs. Loomis, a resident of New York.

Mr. Wm. F. Smith, who has been under the doctor's care, is now recovering.

Mr. J. W. Palmer has very much improved. "The Ball," as it is called, was a very successful event.

Mr. Chas. G. Gentry spent Tuesday at Campbell.

Miss Ella Hight is spending the week in the city.

At a recent dinner, a former student, who has lately returned from a long trip, was seen at the dinner.

Mr. J. W. Farnham entertained a number of young people on Tuesday at his home.

The light bread or the leaden loaf is a matter of choice—not luck. Choice of method—choice of yeast—but, above all, in the choice of the flour. She who chooses

Royal Household Flour

will not have to bargain with fortune for successful baking. It is made from the finest selected Manitoba wheat, which contains more gluten (that quality which makes bread light) than any other wheat.

It is milled under the most sanitary conditions—absolute purity is one very important quality which the Ogilvie System of milling guarantees. There is no other flour in Canada upon which so much is spent to insure its perfect purity.

Ask your grocer for Ogilvie's Royal Household Flour—the flour that makes light bread.

They were charged with the task of creating a new, more effective system of communication. The first step was to establish a common language. This was done by creating a set of symbols and signs that could be used to represent different concepts and ideas. The next step was to develop a system of rules for how these symbols and signs should be used. This was done by creating a set of guidelines that outlined the proper use of the symbols and signs. Finally, the system was tested and refined. This was done by having a group of people use the system and providing feedback on how it worked. The result was a new, more effective system of communication that was based on a common language and a set of rules.
